

Introducing **Ti-1175** Live GPS Tracking All in one solution

The Ti-1175 is the new IP rated water resistant all in one tracking solution which means fast and simple installation with no need for a separate hardware charger.

**High Quality GPS Tracking
Ti-1175**

Enhanced & Accurate Real Time Live Tracking
Disable Vehicle capability
IP rated water resistant
Batter voltage monitoring

Ti-1175 Multi Purpose Device

This tracker can be simply installed for normal tracking solutions. It can also be used to connect to a starter motor or fuel pump to be able to disable a vehicle from your pc or mobile device at the touch of a button. To use this feature the tracker requires professional installation by an auto electrician.

With the use of zones you can be notified when the tracker is entering or leaving a geofence area so you can monitor your tracker.

The Ti-1175 displays the voltage of the battery it is connected to instead of the internal battery which allows you to monitor the voltage of the asset. You will be alerted if the tracker is disconnected from power.

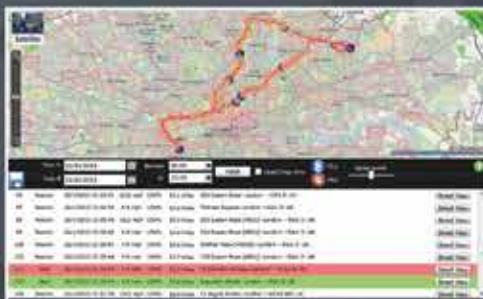

SPECIFICATIONS:

- Up to 2 day internal backup battery*
- Weight: 82 grams
- Size: 74 x 83 x 20mm

*dependant on usage i.e. frequency of reporting
